

WEJHAT ALARABIA
CONTRACTING COMPANY

COMPANYPROFILE

Meet

the founder

A birth of a beautiful dream and an engineering sense that grew since our inception in our small village; an aspiration and internal security given providing us with the determination to excel, the seriousness and perseverance from childhood to achieve that beautiful dream, the owners of the company.

They hard worker to provide the supervision, implementation, maintenance, and management of many government projects (schools, hospitals, and administrative buildings) and special projects. In addition to, residential towers and buildings, commercial and administrative buildings, restaurants, cafes, sports facilities, playgrounds and residential complexes with a green environment, as well as infrastructure projects and works Electromechanical customization and specialized construction work, such as (post and precast) and general site work and metal, works for major factories and warehouses.

YOU HAVE A **VISION**

We have a way to get you there.

*Mohamed
Abu Raya*

We hope we can
be a source of
confidence
for everyone.

To reach the success needs continuous and diligent follow-up, review of all executive, administrative and legal policies, possession of a clear vision for the future, successful leadership, team management, skills development, scientific certificates, courses and engineering research are the source of our interest; add to that, the use of scientific method and rational leadership skills that contribute to the analysis, planning and implementation of projects, solving all problems and taking appropriate decisions.

Our constant keenness on the accuracy of implementation, follow-up on quality and safety of everyone, satisfying the desires and requirements of our customers, adherence to deadlines and duration of implementation, and keeping up with what is new and modern in the world of design, construction and decoration has always been our motto that we work to maintain continuously.

BRIEF H I S T O R Y

Wejhat Alarbia Contracting Company established in 2021. And we hope it will be an extension of many years of success journey in the Kingdom of Saudi Arabia, and in several fields of real estate investment, contracting, trading, import, export, engineering and financial consulting. We provide our clients with highly qualified expertise and an innovative approach to services.

The company's success and performance depends on the effective organization, dynamic management and entrepreneurship through successive mergers, acquisitions and strategic plans committed to customer satisfaction.

We create
**remarkable
experiences**
that make
people's lives
richer.

Wejhat's

M O T T O

We are committed to meeting the needs of our customers by providing cost-effective and timely engineering solutions within budget and appropriate standards under committed management and a professional organizational structure.

Each employee shares with the company a strong commitment to the highest quality and professional performance, and spreading awareness of green environment, safety and security standards. The company maintains a complete list of support services for its own operations, including housing, warehousing, maintenance and repair facilities.

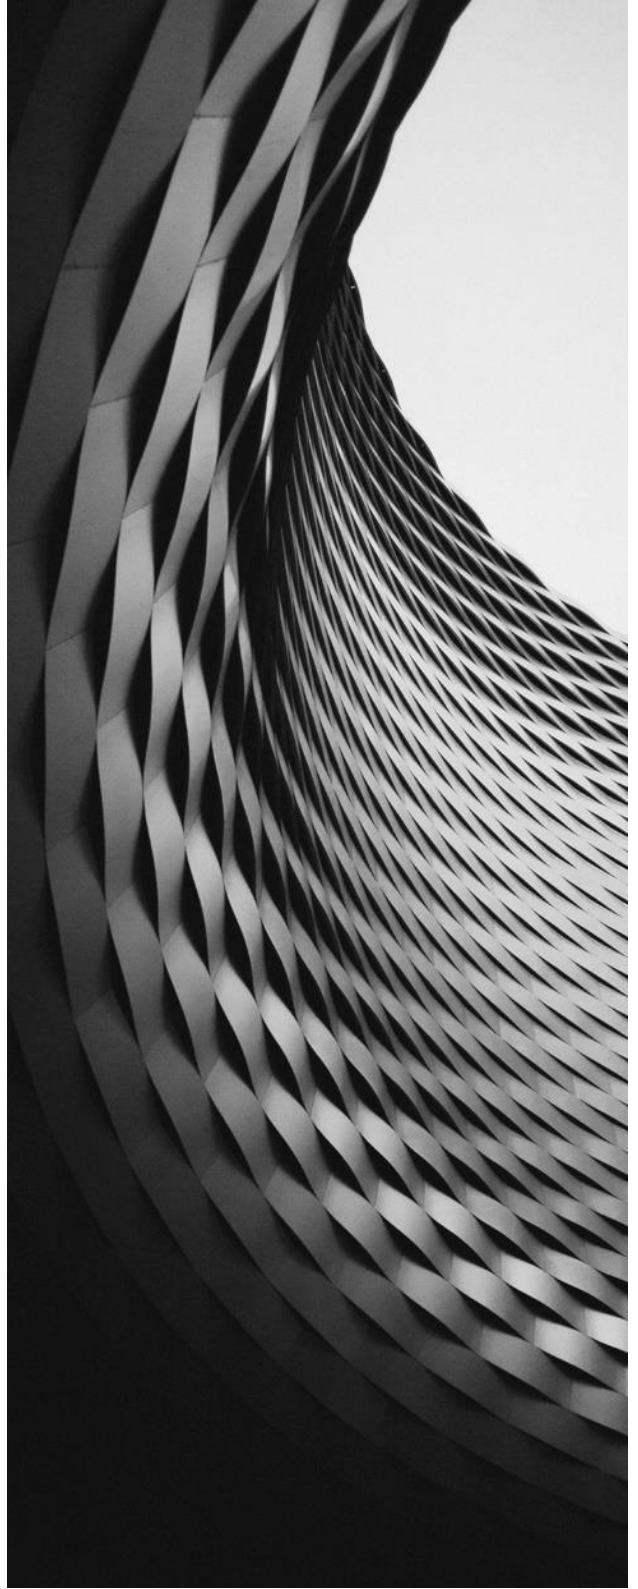

We are always keen on having a continuous follow-up to keep up with the latest technology systems in the world of construction, building, industry and decoration.

*Committed
management
and professional
organizational
structure.*

QUALITY & COMPANY PHILOSOPHY

Quality can only be achieved with the effort and participation of all people who work; through encouragement, innovation, creativity, trust, respect and credibility.

That is why our company encourages and provides the means to develop and implement management systems for the continuous improvement of our operations through the annual review of objectives, policies and systems, with the purpose of being an organization with excellent management and standards in the construction sector.

We hope we can
be a source of
confidence
for everyone.

We prepare &
prevent,
not repair
and repent.

SAFETY & SECURITY

Security and safety systems are among our most important goals and responsibilities, in their various forms, due to their association with all areas of life and their great importance in protecting lives, property, the environment, leadership, guidance, counseling, setting rules and spreading preventive awareness. We have always been keen to follow-up the latest systems in place to achieve safety and security, and work to carry out them and update their instructions. Our employees are required to follow the security and safety procedures constantly, not to neglect or neglect any of them, and to strive to raise their expertise and provide specialized cadres in following up on security and safety measures and matters related to them.
